

Abnormal Security Acceptable Use Policy

This Acceptable Use Policy (“**AUP**”) describes the prohibited uses of the Software as a Service offering (the “**Service**”) provided by Abnormal Security Corporation (“**Abnormal**”). This AUP is in addition to any other terms and conditions under which Abnormal provides the Service to you. In addition to any other remedies available to Abnormal, if Abnormal determines in its sole discretion that you violate the AUP, we may suspend, limit, or terminate your use of the Service without prior notice or liability. This right applies, even if the breach is unintentional or unauthorized, if we believe that any such suspension, limitation, or termination is necessary to ensure compliance with laws, or to protect the rights, safety, privacy, security, or property (including the Service) of Abnormal or others.

Abnormal may modify this AUP at any time by posting an updated version of this document. Such updates will be effective upon posting. We therefore recommend that you visit the Abnormal website regularly to ensure that your activities conform to the most recent version. Your continued access to and use of the Service constitutes your agreement to be bound by such updates.

The prohibited uses listed below are not exhaustive. Prohibited uses and activities by you, the customer, your users or any third party include, without limitation:

- Violating any applicable laws or regulations (including without limitation data, privacy, and export control laws) or use the Service in a manner that gives rise to civil or criminal liability;
- Intentionally distributing malicious code, viruses, worms, defects, Trojan horses, corrupted files, hoaxes, or any other items of a destructive or deceptive manner;
- Infringing or misappropriating Abnormal’s or any third party’s intellectual property, proprietary or privacy rights;
- Reverse engineering, decompiling, or disassembling the Service or any software used in the provision of the Service;
- Interrupting, or attempting to interrupt, violate, obtain unauthorized access to, disrupt, damage, overburden, breach, or compromise the operation or security of the Service or any networks or systems;
- Using the Service for any reason other than as intended by the parties.

We may report any activity that we suspect violates any law or regulation to appropriate law enforcement officials, regulators, or other appropriate third parties. We also may cooperate with appropriate law enforcement agencies, regulators, or other appropriate third parties to help with the investigation and prosecution of illegal conduct by providing network and systems information related to alleged violations of this AUP.
